

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davidson Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—
"Your medicine is indeed an ideal medicine for women. I suffered miserably for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Laramie, N. D., writes:

Dear Mrs. Pinkham:—
"I might have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills."

Vegetable Compound sooner; for I have tried so many remedies without help. "I dreaded the approach of my menstrual period every month, as it meant so much pain and suffering for me, but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain at my monthly periods. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhoea, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

The Apple Market in Rutland.

Apples are much in demand in Rutland at present and farmers are bringing in many barrels of the fruit. The best quality retail at \$3.50 a barrel, with every indication that these figures will be increased during the winter months. In several sections within a radius of ten or fifteen miles complaints have been made that the fruit is ripening too quickly. As a consequence "early rot" is likely to diminish the salable supply so that the profits will not be as large as farmers expected, after a perusal of market reports. While the demand is active and steady, and prices are an important consideration, many shippers, both in this state and in Maine are of the impression that, by withholding a large percentage of their apple crop, higher prices will be secured later. A wholesaler in Boston is quoted as declaring this decision ill-advised and wrong. He says that before many weeks a large number of farmers who are holding back for better prices will become restless and dubious as to the outcome of their venture, with the result that they will begin to unload and prices will drop like Wall Street quotations during a panic.

"Are your bowels regular?" He knows that daily action of the bowels is absolutely essential to health. Then keep your liver active and your bowels regular by taking small laxative doses of Ayer's Pills. We have several bottles of Ayer's Pills, the formula of all our medicines, Lowell, Mass.

For some time we have been wanting to move Mr. Alexander to a place at least nearer to the scene of the legislative investigation, said a friend of the ex-president, "but we are only now that we have been able to do so. I hear that Mr. Alexander is much improved. He is eager to testify just as soon as it is possible, if only in order to have a chance to disprove the calumnies now spread about him."

Apparently the committee has received no word of William H. McIntyre, Thomas D. Jordan and Gen. Louis Fitzgerald. It is believed that Mr. Alexander is, perhaps, the only insurance man of importance whose whereabouts is known who is able to furnish information as to the Equitable's so-called "yellow dog" fund, and the mystic "J. W. A." accounts.

DREAMS WERE A BRIDGE.

Woman's Love Letters Disgust Cleveland Judge.

Cleveland, O., Nov. 6.—Judge Lawrence Saturday expressed his unqualified disgust with the love letters of Mrs. Cookson to Thornton Huthroft, the baseball player, which were read in the Divorce Court Saturday.

They glowed with love and terms of endearment. In one Mrs. Cookson called Huthroft her "dearest sweetheart," and said her dreams were the bridges over which she came to him nightly.

In another letter she spoke of her thoughts of him at night as like the opening of a box of jewels by moonlight. In another she asked him to send her his money so he could save it and go to the St. Louis exposition.

TORNADO IN OKLAHOMA.

Seven Persons Killed and Much Property Destroyed.

Guthrie Okla., Nov. 6.—A tornado struck Mountain View, Okla., Saturday evening, killing seven persons and injuring many others, and damaging much property. The death of W. T. White, F. W. Clark, Jennie Jones, Mrs. W. M. Holt and child, J. S. Barkley, Mrs. Smith. The school-house, two churches, two livery barns, one hotel, a cotton gin and about 13 dwellings were blown away and many more seriously damaged. The business part of the town was untouched, except that a few windows were blown in.

SCIENCE AIDS INDUSTRY

Why Germany Leads All in Commerce.

WE MUST FOLLOW

Dr. Pritchett Predicts Far Reaching and Good Results—Visits Washington in Interest of Standards Bureau.

Washington, Nov. 6.—Dr. Henry S. Pritchett, president of the Massachusetts Institute of Technology and formerly at the head of the Bureau of Geological Survey, is in Washington to attend the meeting of the Board of Visitors of the Bureau of Standards, which was described in this correspondence some weeks ago. Dr. Pritchett, had much to do with the establishment of this bureau on its broad lines. When it is yet in its infancy he believes the bureau is destined to be of great value to our people.

"Eventually," he said, "it ought to do for us what the German governmental bureau of practical research does for the subjects of the kaiser. When in Germany recently I was intensely interested in this phase of State work, and learned how far-reaching and beneficent were the results attained. In applying scientific knowledge to the practical things of life, the Germans are in the lead of every nation on earth, and I believe the United States is a fair second. Thirty years ago the Germans were regarded as theorists and dreamers, but through the application of science to industry they are now in the front rank of commercial nations."

"Supposing a manufacturer in Germany has some problem to solve that is vital to his industrial success, this bureau of practical research is appealed to, and takes up the problem with zeal and untiring patience. A Berlin paper manufacturer told me that he bought a vast quantity of new timber that somehow failed to produce satisfactory pulp. He took a sample to the Government scientists, who worked over the matter for several months before they were able to show him a remedy that saved him from financial ruin. This may be paternalism, but it is a very good sort of paternalism, and the United States would do well to emulate it. Germany is a very poor country in resources and raw material, as compared with the United States, but but for the scientific and investigating spirit of its educated men it would be no sort of competitor with us in the business affairs of mankind. Rich as we are, the day is fast coming when we will have to follow in Germany's footsteps."

Could Not Get Alcohol.

A good story is told of Attorney-General Clark G. Fitts. The records in Brattleboro for the month of September show that 727 liquor prescriptions were filled by the four drug stores there, by prescriptions of the doctors. Of these 318 were written by one physician. H. D. Ryder, State's attorney, upon investigation found that of the whole number of prescriptions, only about a dozen were made out in legal form. The story goes that a day or two later Attorney-General Fitts came into one of the drug stores, with a doctor's prescription for a quart of alcohol. However, the clerk informed him that he could not fill it, for it was not made out legally. Thereupon Fitts is said to have turned on his heels and walked out without a word.

HE WILL TESTIFY.

Condition of Ex-President J. W. Alexander Improved.

New York, Nov. 6.—The condition of J. W. Alexander, the ex-president of the Equitable Life Assurance Society, shows so much improvement that his friends are hopeful that he will be able to testify before the legislative insurance committee. Mr. Alexander's condition is such that he has been able to depart from the Catskill mountains, and he is now in New England and nearer New York.

For some time we have been wanting to move Mr. Alexander to a place at least nearer to the scene of the legislative investigation, said a friend of the ex-president, "but we are only now that we have been able to do so. I hear that Mr. Alexander is much improved. He is eager to testify just as soon as it is possible, if only in order to have a chance to disprove the calumnies now spread about him."

Take Care

Of Your Heart.

It is the engine that forces the blood to every part of the body; this blood conveys the nourishment that makes flesh, bone and muscle; it also carries off the worn-out particles.

If the heart flutters or palpitates, it is weak, and is working imperfectly, so that the body does not get this nourishment; it also fails to throw off the impurities, and they remain to poison the system.

If it is irregular, skips beats, or is painful, the heart is probably "leaky" and the circulation poor. These conditions are dangerous. You can make your heart well, and keep it so, with Dr. Miles' Heart Cure, which is a heart medicine and tonic that strengthens the heart nerves and muscles.

"I have been a sufferer for years from nervousness and weak heart, and I have tried all the doctors in the city. They all told me I had heart trouble, but they failed to help me. My druggist prevailed upon me to try Miles' Heart Cure, and Restorative Nervine, saying that if the first bottle did not benefit me he would return the money. Every dose helped me from the time I began taking it, and after awhile my trouble was all over."

BURDETTE DEKAY, Cuba, N. Y.

Dr. Miles' Heart Cure is sold by your druggist, and will guarantee that the first bottle will benefit you. If it fails he will refund your money.

Miles Medical Co., Elkhart, Ind.

HORNS ON WILD MAN.

Also Tusks; Seeks Services of a Doctor in Illinois.

Chicago, Ill., Nov. 6.—A dispatch to the Tribune from Springfield, Ill., says: "A real wild man, with horns and huge tusks was discovered here Wednesday. He is George Brown, a big negro from Georgia, who applied to Dr. Walter Ryan to have the silver plate which held the horns in place removed from his head."

For more than a year and six months the negro had been carrying the plate on his head, concealed beneath the scalp, but recently it began to slip out of place, causing discomfort.

He said the plate had been inserted under his scalp for the purpose of fattening two horns upon it. At the same time two of his front teeth had been sawn off and supplied with gold crowns, upon which could be sewed down two formidable looking tusks, and when this had been accomplished, he went on the road with a show, posing as a real "wild man."

He declared that in this fashion he had traveled all over the state of Georgia, attracting wondering multitudes of people who came to gaze on the real live "wild man" captured in the recesses of Africa.

As the negro said that the plate had been hurting him for some time, Dr. Ryan took the man to St. John's hospital, where he removed it.

FOR EARLY DISSOLUTION

London Times Calls for New Parliament.

WILL APPEAL TO COUNTRY

No Foreign Issues Now Counsel Delay—Paper Not Convinced That Unionists Will Be Beaten.

New York, Nov. 6.—A copyright cable to the Times from London says:

The (London) Times openly advocates the early dissolution of Parliament and an appeal to the country on the fiscal question. Commenting on Mr. Chamberlain's declaration that the Unionist party ought to regain its freedom by putting an end to the present Parliament. The Times says:

"He cannot now have much longer to wait. The powerful reasons which operated to postpone dissolution no longer are urgent; the delicate questions of colonial and foreign policy which hung in the balance last session have been happily closed, either definitely or by changes in events and opinions which largely preclude disturbance of their progress toward a settlement. We yield to none in the desire for reform of the more glaring anomalies of representation, but we can no longer regard the passing of the redistribution bill by the present Government as a possibility. It is not probable that experienced members of the Unionist party take any different view. An appeal to the country may therefore be looked for within a period which can be rather narrowly defined. The choice in fact lies between making the appeal in January, just before Parliament meets, and making it in the course of the session, and probably early rather than late. Gladstone's adoption of the former course in 1874 is not of happy augury, and there are practical reasons for waiting until Parliament assembles in the coming year."

The Times is not convinced that the Unionists will be beaten in the next general election.

CONCORD ALDERMAN GONE.

Left Note for Daughter Saying He Would Not Come Back.

Concord, N. H., Nov. 6.—Alderman William W. Allen of Penacook, Ward 1, Concord, has disappeared. On Thursday evening Mr. Allen hired a horse at a Penacook livery stable and drove to this city. He stopped at a local stable, where he left his team, saying that he would call for it the next day. He did not reappear, and all trace of him was lost at the stable.

Before leaving Penacook Mr. Allen wrote a letter, which he left with his daughter, saying that he was going away, wouldn't come back, and that they could not find him. He took with him all the available funds in the safe, which, in the aggregate in bills and checks, amounted to several hundred dollars, how much exactly is not known.

It is understood that Mr. Allen's business affairs have become heavily involved of late, and to this fact was due his sudden departure from the village. He is married and has one daughter.

RAILWAY STATIONS BURNED.

Postal Service Suspended Between Odessa and Shimerka.

London, Nov. 6.—A special to the Standard from Odessa says:

"Three railway stations have been burned between Odessa and Shimerka, and the postal service has been suspended. Collisions between armed forces continued until late at night in three districts. Yesterday's casualties are believed to have numbered about 500. Among the incidents witnessed yesterday was the following:

"A student and a girl were driving in a drinsky, the girl wearing a red cross armband. Six cosacks were quietly passing, when suddenly the girl fired, wounding one of them in the leg. The cosacks replied, shooting the student dead. The girl attempted to flee, but was shot, and as she fell it could be seen that the dress masked a student."

NOURISH

the body, don't dose it with medicine. Scott's Emulsion is the best nourishment in existence. It is more than a food; you may doubt it, but it digests perfectly easy and at the same time gets the digestive functions in a condition so that ordinary food can be easily digested. Try it if you are run down and your food doesn't nourish you.

Representative Adamson of Georgia, while going to Washington one day not long ago, noticed a crowd around the depot at one of the stations on the Southern, down in North Carolina, and asked a negro, "Adam, what's the matter here?" "Jim Johnson's dead, sah," was the answer. "Somebody shoot him?" "No, sah; nobody done nuthin' to him; he jis died all at once unanimously."

SEA MARRIAGE DOES NOT HOLD.

Judge Orders Marriage Annulled Because State Law Was Evaded.

San Diego, Cal., Nov. 6.—Judge Torrey has issued an order annulling the marriage of Katherine E. Martinson and Christian H. Martinson. The marriage was performed on the steamer Santa Rosa, on July 15, 1900, by Captain Alexander.

One of the persons had been divorced within the preceding year, and the court was of the opinion that the ceremony on the high seas and without a license was performed for the purpose of evading the laws of the state.

The marriage was declared annulled on a petition filed by the woman, who is granted permission to resume her maiden name.

A New Dessert Idea.

You and thousands of others are tired of the every day desserts. Let us suggest that you try to-day

D-Zerta

Quick Pudding

Which can be prepared instantly. All ingredients in the package. Add one quart milk, bring to a boil, cool and serve. Five choice flavors—Vanilla, Lemon, Chocolate, Strawberry and Orange. 10c. All grocers.

Order Each Flavor To-day.

We Recommend

Lix-all—Gray's warranted Laxative Cough and Cold cure—because it contains No Morphine or other Habit Forming Drug, but does contain the best ingredients known to medical science for Coughs and Colds, and will pay back your money if not satisfactory.

WELCOME WORDS TO WOMEN.

From the view point of the average man housework is very easy. The wife is right at home. She is her own mistress. She can sit down and rest any time. She can even go to bed for a nap if she feels like it. She can order her household affairs just to suit her own convenience. If she doesn't feel equal to doing work to-day, she can do it to-morrow. That is the beautiful theory of the average man.

Just suppose the Egyptian task-masters, when they made the required daily tale of bricks tax the utmost of human strength, had said to the tiring slaves, "Don't hurry, take a rest every now and then—only don't forget that your tale of bricks must be all right at night or else there'll be trouble."

There's the fact. There are the day's duties to get through, and the women who can rest may not. The woman, who, when she married, said, "Now I'll be my own mistress," finds herself a slave to household cares and duties.

And oh! how much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples throbbing, her back aching, her nerves quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest.

Rest would temporarily relieve the strain, doubtless, but it would be the same story over again to-morrow. The real need of weak, nervous women is strength, and that need is fully met and satisfied by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. It removes the causes of women's weakness, tranquilizes and invigorates the nerves, encourages the appetite and induces restful sleep. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," anæmia, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied by scores of the most annoying medical troubles.

"I am pleased to add my testimony in behalf of Dr. Pierce's Favorite Prescription," writes Miss Earline Agard, Chaplain, Patriotic Daughters of America, of 4134 Michigan Avenue, Lansing, Mich. "I cannot find language to express my gratitude and joy over the fact that I am well once more. Wearing my corsets too tight seemed to have brought on an extra abdominal pressure, weakening the ligaments and causing the internal organs to descend. What to do I knew not, as no medicines I took seemed to help me."

"I had heard of Dr. Pierce's Favorite Prescription and determined to try it, as a last resort. Before the first bottle was used I began to feel better, but could hardly believe that recovery was permanent, but my improvement went steadily on, and within four months I was like a new woman. Now I have no more pains, am well and strong, and am extremely grateful to you."

There is nothing to conceal about the make-up of "FAVORITE PRESCRIPTION." It is an absolutely pure medicine—

WELCOME WORDS TO WOMEN.

made of native roots—Nature's own restoratives, compounded after a formula concerning which there can be no question—by skilled chemists and by thorough scientific processes. Doctor Pierce is perfectly willing to let every one know that his "FAVORITE PRESCRIPTION" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black Cohosh root and Golden Seal root. Every doctor knows that such a prescription is beneficial in the diseases of women and when properly compounded is certain to effect a cure in nearly all cases when given a fair trial. Every bottle feels the "FAVORITE PRESCRIPTION" which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., has plainly printed upon its wrapper all the ingredients of which it is composed. Thus Dr. Pierce proves to the world his own confidence in the remedy which for forty years
